XYLENE & SOLVENT RESISTANT LABELS FOR THERMAL-TRANSFER PRINTERS

Labels and printout are resistant to Xylene, Ethanol, Acetone, Dimethyl Sulfoxide (DMSO), Acrylonitrile (ACN) and other chemicals. The CRT-1 xylene-resistant cryogenic labels are ideal for printing slide labels in cytopathology or histology labs. Designed for durable thermal-transfer printing. The adhesive can withstand as low as -196°C and will not stick to gloves. CRT-1 xylene resistant labels comply with FDA CFR 175.105 for indirect food contact and is RoHS Compliant per EU Directives 2002 / 95 / EC, 2003 / 11 / EC and 76 / 769 / EEC.

ANIMAL CAGE LABELS

GlueFree Tags™ are adhesive-free water-proof static labels for identification of animal cages.

They are available as blank labels in multiple eye-catching colors that can be printed in thermal-transfer printers or inscribed with permanent markers or ball-point pen.

Easy to use: just apply to the cage and press on the label.

Pre-printed or custom-printed labels are available for no-extra cost (please provide the required information).

Other sizes of labels can be provided upon request.
