

Cryo Deep-Freeze™ & Cryo Ubiqui-Tag™ Labels

LABELS FOR LASER PRINTERS

Cryogenic plastic labels for long-term storage in liquid nitrogen and deep-freezing harsh environments for biomedical research and clinical laboratories.

Cryo labels accept desktop laser printing and permanent marker.

Temperature Range: From -196°C to +120°C

Cryo labels can be applied to already frozen tubes - Patent Pending

Water-resistant; Wear and tear proof; Do not jam printers; Resistant to UV and Gamma irradiation.

To download label templates for printing please click on "Label Templates" button on the blue horizontal bar.

LAB-TAGS™

Ideal for identification of vials, plastic bags and other containers for long-term storage and color coding in deep-freezing and harsh laboratory environments.

Easy to write on with permanent markers – Recommended MP-1 and F-1 markers from GA International. Can be printed in laser printers (preliminary testing is recommended).

These labels perform extremely well in temperature range between -80°C and +110°C.

ANIMAL CAGE LABELS

(Glue Free-Tag™)

GlueFree Tags™ are adhesive-free water-proof static labels for identification of animal cages.

Available in multiple colors;

Thermal transfer printable;

Can be inscribed with permanent marker and ball-point pen

Easy to use: just apply to a cage (glass or plastic) and press on the label.

Available as blank or pre-printed

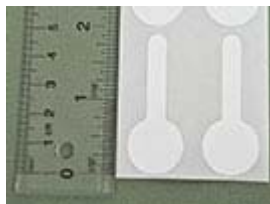

Other sizes of labels can be provided upon request

CRYO-LAMINATE™

Other Sizes of transparent labels may be available or can be custom-made according to your specifications. Ultra-thin laminate provides excellent protection against most of chemicals and reagents. Can be used for long-term storage in liquid and vapour phase liquid nitrogen or ultra-low temperature freezers. (as low as -196°C)

Resistant to dry ice, boiling water, autoclave, multiple freeze-thaw cycles and other harsh laboratory environments.
